

I, _____, give permission to Family Tree DNA (“FTDNA”) to make my name and email address available to my relevant genetic match(es). A relevant genetic match is defined in the section entitled “Legal Issues - Privacy Policy, Terms of Service and Refunds” on the FTDNA web site, that I have read, understand and agree. If another party’s DNA sample is a relevant match to my DNA, I want FTDNA to release to them my name and email address, together with such information about my DNA results that shows how we match, and I will receive the corresponding information of my matches in return. Additionally, pursuant to the terms set forth in “Legal Issues - Privacy Policy, Terms of Service and Refunds” (available at <https://www.familytreedna.com/privacy-policy.aspx>), I hereby give a specific authorization to FTDNA to use my de-identified DNA samples and test results for the purposes of migration and population genetics studies. Unless I sign this Release Form, my personal information will not be shared with anyone who may not match my DNA markers in any form, now or in the future, with the exception of Project Administrators in the projects I voluntarily choose to join. I understand that, regardless of whether or not I sign this form, in case I choose to join a project, all of my contact information will be shared with the administrators of any project I join. By signing this document, I hold FTDNA harmless for all consequences of sharing my information according to the above and the “Legal Issues - Privacy Policy, Terms of Service and Refunds” on the FTDNA web site. Accordingly, any disputes will be resolved by arbitration.

The person submitting DNA for this kit is: MALE/ FEMALE
